Not a course for letting your guard down on any hole. There is always something lurking around the corner, be it water, bunkers or out of bounds.

Keep enough in the tank for the last four holes, because they can ruin an otherwise good round.

The course has been renovated, and in its current state, I think it is probably the most comfortable and pleasant course to play on the island. Fairly flat, tees quite close to the greens, not excessively long, and ideal for amateur players. They are currently cleaning up all the areas running along the fairways.
